

Postcode Address Look-up

Description

The Postcode Address Look-up plugin has been designed to improve data integrity and customer service within Sage X3 whilst reducing data entry errors. It provides an easy to use postcode and address search facility which has been fully integrated into all Sage X3 address screens.

Functionality

Enter a postcode and click the search icon

Postcode  

Select from list of matching addresses

Address Selection

Text	Description	Address Id
Prime Minister & First Lord of the Treasury, 10 Downing Street London, SW1A 2AA		
		GB RM A 23747771

The Address is returned to Sage X3.

10 Downing Street

The Address Look-up uses an on-line service so there is no need to purchase or maintain a database internally, the data will always be up to date. A subscription to Loqate, formerly Postcode Anywhere, is required.

There is also an international version available for export customers.
